YO, YA CAN'T BEET FREE WiFi

READING TERMINAL MARKET CAMPAIGN

Reading Terminal Market finally joined the 21st century with free WiFi and a whole new way to connect with visitors. I led the charge with a playful, produce-powered campaign that brought tech to the table. I wrote the corny copy, illustrated the veggie-tech visuals, and designed posters, banners, stickers, and table tents to spread the signal.

LIVE BOLDLY WEBSITE DESIGN

BUCCINI POLLIN GROUP OF RENTAL PROPERTIES

I was responsible for the branding, layout, UX/UI, and high-fidelity prototype of this website. The design system is made to be easily interchangeable in order to best serve the unique needs of each property's brand.

BRANDING PHILLY'S FAVORITE MARKET

READING TERMINAL MARKET BRAND IDENTITY

Before I even stepped into my role as The Market's first on-staff visual designer, I was eager to give the 125-year-old food haven the droolworthy makeover that I knew it deserved. This historic landmark, located in the heart of Philadelphia, is a bustling mecca for hungry locals and wide-eyed tourists. The building is overflowing with sizzling sights, savory smells, and cultural flavor at every turn.

But the brand itself had been starved of attention for years.

I developed bold brand guidelines and a flexible visual system that matched the Market's energy. This new identity celebrates the richness of its global cuisines, the diversity of its customers, and it's place as the beloved cultural epicenter and melting pot of my hometown.

NEIGHBORS CREDIT UNION

Neighbors Credit Union's old site was cluttered and difficult to navigate. They wanted to simplify the content and architecture of their site, appeal to a younger audience, and highlight their mission of "always being a good neighbor."

I was responsible for the design of the UX and UI of the site & the high-fidelity prototype.

PRODUCT PAGE DESIGN

CONTINENTAL BATTERY SYSTEMS

I was responsible for the layout, design, & UX/UI of this this product page. Each section is designed to have the information easily switched out to provide the unique specs for each skew.

This template will be used to make pages for each of the hundreds of batteries that Continental has to offer to their customers.

The Role of Batteries in Commercial Truck Safety
Commercial truck drivers spend a lot of time on the road, and that means they need heavy-duty batteries with the right specs to get from point A to point B to point C, and so on. But it's more than just making it to the next delivery stop with all of the cargo intact — drivers need to be able to rely on their trucks to keep them safe.

Golf Cart Batteries: 3 Signs It's Time for a Replacement (and How to Do it Yourself)
Warm weather means golf carts are on the move once again. Whether you're hitting the links or fooling around the neighborhood, there's something feeling about gliding through the fresh spring air after a long winter indoors. But what happens when that first turn of the key is met with silence, or your smooth ride suddenly feels sluggish?

SHOP LOCAL CAMPAIGN

READING TERMINAL MARKET

To reintroduce Reading Terminal Market as a grocery destination for Philly locals (not just tourists), the Shop Local campaign targeted neighborhoods within a 16-mile radius.

As Art Director & Designer, I led concept development, copywriting, photography, design, and implementation across all ad placements, including transit posters, direct mailers, digital ads, and street banners encouraging residents to "Shop Local."

BRAND IDENTITY DESIGN

SPARC PHILADELPHIA

When I joined SpArc, the organization had no brand guidelines, no color, and a pixelated gray logo. But the people? Bright, bold, and full of life. The brand needed to reflect them.

As Art Director, I led a full brand refresh that brought SpArc's mission of inclusion and independence to life with vibrant color, authentic photography, and joyful design.

I created a wide range of marketing collateral: letterheads, business cards, brochures, donor mailers, vehicle wraps, social content, signage, t-shirts, and community event branding. The visual identity now feels just as dynamic as the individuals at the heart of SpArc's programs.

I love to dance!

AI CONCIERGE CAMPAIGN

TRUIST BANK

I was the Creative Director on this project and was responsible for character creation and illustration, copywriting, and the designs for emails, banners, table tents, posters, digital ads, and social media content promoting Truist's newest assistant.

DEAD FLOWERS BRAND

DEAD FLOWERS CONCEPT & BRAND

Dead Flowers of Philly is a collective of artists, sideshow performers, musicians, comedians, burlesque dancers, and circus folk. We created live events designed to entertain, shock, and captivate.

I developed the brand, logo, posters, merchandise, and event photography. I also booked venues and managed live shows to keep everything running on time.

CONCEPT + BRAND IDENTITY

PENNSYLVANIA POUR COLLECTIVE

The Pennsylvania Pour Collective was a concept and creation developed by myself and the rest of the 3 person Marketing team at Reading Terminal Market. It was a collection of six local distilleries selling their libations in a shared space within The Market.

I was responsible for naming, branding, & designing all things associated with the collective. I also created and ran Sip & Sample, a weekly event promoting the vendors and the space.

INTERACTIVE LANDING PAGE DESIGN

MADISON/MILES MEDIA

I crafted the **Content-Driven Agency** page utilizing a human-centered design approach, designing multiple interactions to keep the user engaged on an information-heavy page. I was responsible for the UX/UI and prototyping of this page.

WEB DESIGN & SOCIAL MEDIA

CONTINENTAL BATTERY SYSTEMS

I was responsible for the design of social media posts, reels, & story content on Instagram, Facebook, Twitter, and LinkedIn.

I was responsible for the design & UX/UI of this landing page targeting customers who have recently purchased a battery from Continental. The QR code on the battery label leads to this page of helpful resources.

DIGITAL DINING CONCIERGE COMMERCIAL

LOUISIANA STATE UNIVERSITY & ARAMARK

LSU required an animated commercial advertising their new Digital Dining Concierge application. Zoe, a character created to represent a typical student at LSU, was created. This commercial walks through the app and it's varied uses.

As Creative Director for this project, I lead the development of storyboards, character creation, and created all illustrations. I oversaw the animation and video production artists and ensured consistency throughout. This project had a tight deadline- both time management and project direction were important parts of the successful outcome.

HEALTHCARE DIGITAL DESIGN

CORMEUM APP & FETAL CARE CENTER DALLAS

For the Cormeum App, I designed compelling social media campaigns and educational videos. This allowed them to reach a larger audience and contributed to their mission of helping patients diagnosed with heart failure track valuable insights on their condition.

I elevated Fetal Care Center Dallas' brand, positioning them as a groundbreaking and trusted organization within their field. This resulted in a 239% increase in impressions on Facebook and an increase of website traffic by 19% MoM.

FOOD PHOTOGRAPHY

MY KITCHEN

I love to cook, and taking pictures of the dishes that I create fills me with joy. It's a hobby of mine that started when I worked at Reading Terminal Market and created recipe cards that local shoppers could use as a resource during their shopping experience.

I had the opportunity to develop the recipes, cook them, taste test them, and photograph them. It was definitely a perk of the job.

I'm responsible for cooking, photographing, & eating these dishes.
